introduction

Abbe Corrugated is a Family Company with a Passion for Excellence.

We are an independent Australian manufacturer and converter of corrugated cardboard, cardboard boxes and other associated packaging products.

Plain Brown Shipper

Our commitments to you are:

- Responsiveness and fast turnaround of your order
- Reliable on-time supply
- Superior, consistent quality and customer service
- Our best possible price

You now have a genuine alternative for the supply of all of your corrugated packaging needs.

We make all our own board and have the ability to supply both high and low volume users.

We are experienced in supplying to a range of different customers with both individual and or special requirements.

We can also custom design and make corrugated packaging to your particular specifications.

Shelf Ready Cartons

Abbe Corrugated offers quality finished cardboard and corrugated packaging products to a diverse range of customers in a diverse range of markets.

These markets include: Fresh Fruit & Produce; Meat, Poultry & Seafood; Dairy; Confectionary; Printers; Processed Food; Wine & Beverage; Clothing & Textile; Electronics; and any Other market you might imagine.

Our extensive range includes Printed or Plain, one or two piece trays and boxes as well as some products that are custom designed to meet the specific needs of the product or process. This may include particular coatings, waxing, hand holes/vent holes and inserts to name a few.

meet the family

We have been operating as Abbe since 1988.

The company is a wholly owned private company and is operated and managed by the O'Sullivan Family.

The O'Sullivan family's passion for excellence is backed by innovation and over 55 years of manufacturing experience.

"We are committed to an ongoing investment program which will ensure that we are well positioned to meet the needs of the market well into the future."

"We are the most responsive in our industry. Service, service, service is our philosophy."

This includes our 'state-of-the-art' corrugator and printing and converting capabilities"

"We believe that our commitment to our people is critical to success. For this reason, we continue to review our needs to ensure that we attract the best people into our business."

We always try to surpass our customers expectations.

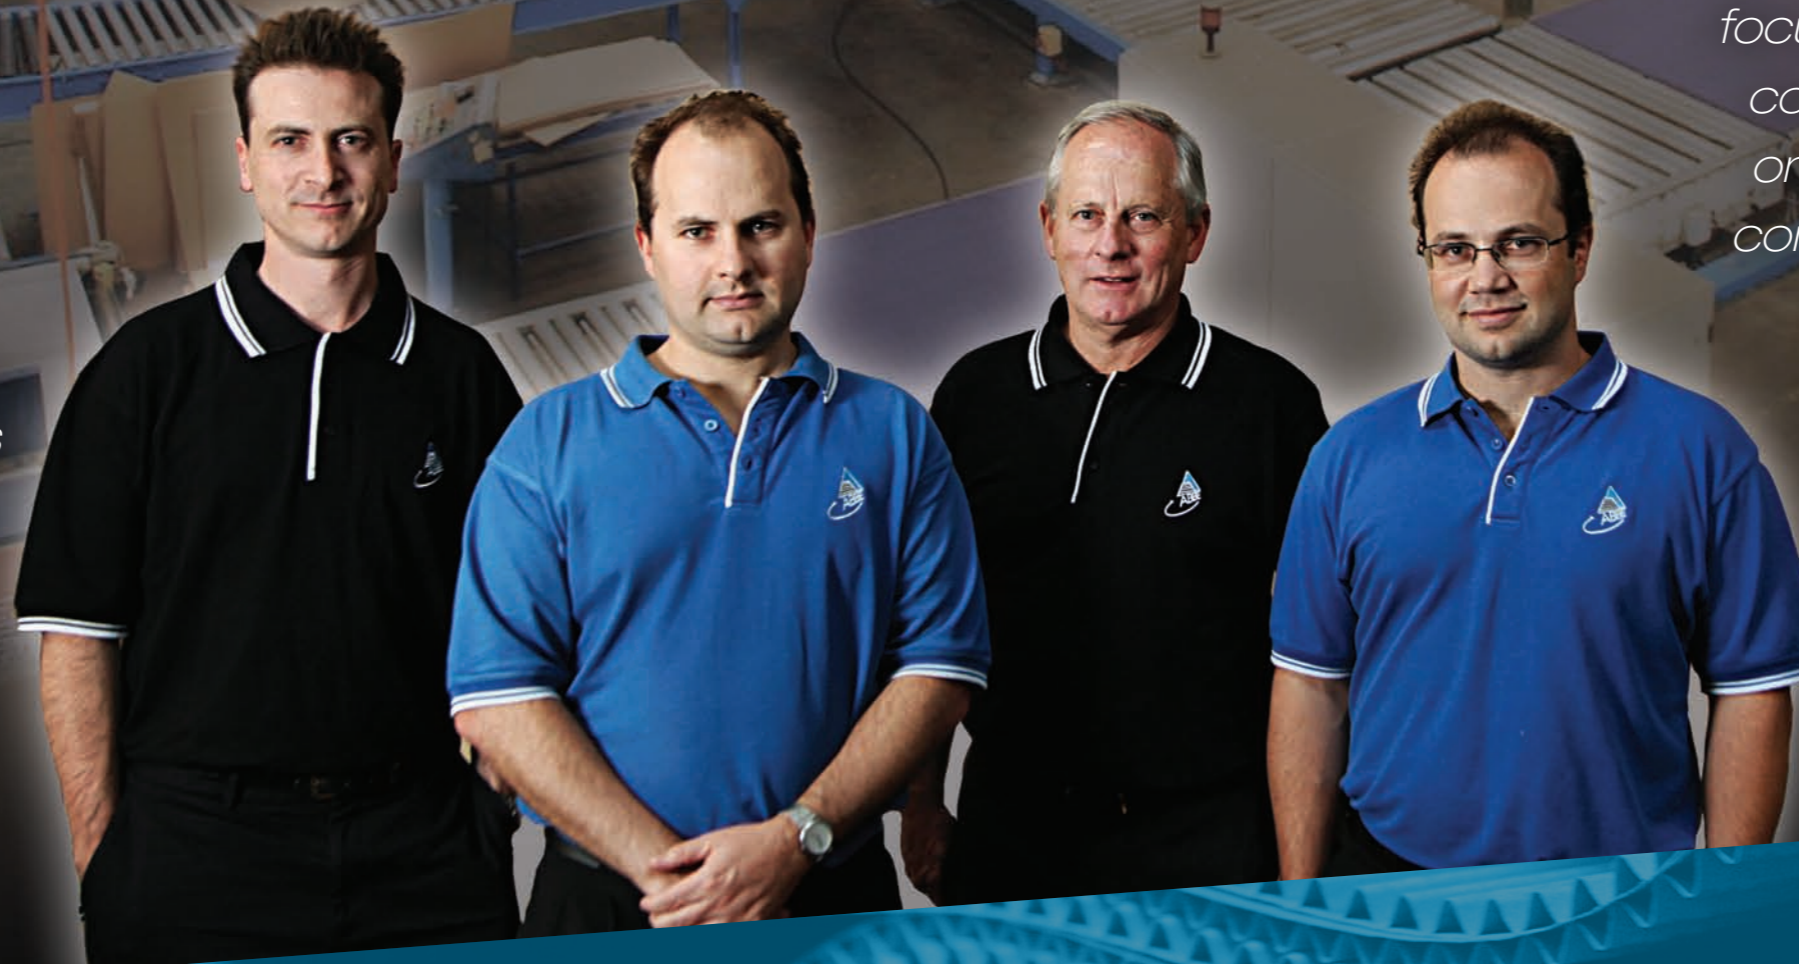

Our staff now number in excess of 250 people, across three manufacturing facilities.

"As a proudly independent packaging supplier, we are extremely efficient and highly competitive in the market place."

We provide a streamlined service underpinned by a range of customised systems, which allows us to produce quality products with minimum lead-times and full production visibility."

"Abbe's commitment to Quality is further enhanced by our accreditation to ISO 9001:2008. This covers the design, Manufacture, sale and distribution of corrugated cardboard packaging and components and ensures that we comply with the requirements of this global system."

"Our vision is to continue our focus on customer service, consistent quality and an ongoing commitment to continuous improvement"

our processes

We utilise highly efficient and modern converting machinery incorporating the latest Flexo-Folder gluers, as well as rotary and flatbed die-cutters.

Having an ultra-modern corrugator is Abbe's competitive advantage. It allows us to produce our own corrugated cardboard, thus guaranteeing control over the entire manufacturing process and ensuring both reliability and consistency of finished product.

Paper Reels

Corrugated Sheet is manufactured to order in 'B', 'C', 'E', 'B/E' & 'B/C' flutes. It can be made to various paper grade combinations specific to end-user specifications. Sheets are available in white or natural brown.

Die cut cartons can be designed and manufactured with special features, such as shelf ready perforations for easy opening, self locking and crashlock bottoms or the inclusion of internal fittings to separate products for transit protection.

Corrugator

We also offer an extensive and diverse range of print options. Apart from our in-house design and production capabilities, we are also able to provide the simplest one colour design through to the most complex of Litho print.

Flexographic printing ranges from a one colour "this way up" print, to full colour graphic displays.

High quality Flexo Printing, (up to five colours), is now filling a void between standard Flexo and an area once dominated by Litho printed cartons.

When specific products require a high level of print reproduction, we are able to provide Litho-Laminated cartons.

Finished Product

Our in-house design and manufacturing capabilities allow us to create a variety of products, suitable for a wide range of end-use markets.

Various Flexographic Grape Lids
